

SWOT ANALYSIS

1. STRENGTH

- I remember stuff well after reading it once, which is useful for retaining complex information related to my studies and profession.
- When I believe to do something, I am determined to putting up the necessary effort to achieve my objectives, which enables me to tackle difficult projects.
- I am familiar with over 10+ AI tools, which improves my career possibilities by keeping me up to date on technological breakthroughs.

2. WEEKNESS

- I struggle to stay consistent with my study schedule, which can have an impact on my long-term grasp of complicated subjects.
- I find logic building and problem solving difficult, which are important abilities in technological domains such as coding and algorithm creation.
- I have trouble keeping eye contact, which can impact my communication abilities during presentations and interactions.
- I rely significantly on generative AI technologies, which may break the growth of my own problem-solving abilities and independent thinking.
- I struggle to express myself freely with others, which can impact communication and collaboration in both academic and professional situations.

3. OPPORTUNITY

- I have started AI-related courses such as Prompt Engineering, I am opening up new career opportunities and staying competitive in the rapidly evolving tech industry.
- I'm currently working as a Front-End Development intern. This job is giving me practical experience and helping me improve my skills. It's also opening up new career opportunities for me

4. THREATS

- Frequent distractions from mobile and social media can lower my productivity and focus, which affects my ability to consistently work on and complete projects.
- Struggling with consistency in my study routine could lead to gaps in my technical knowledge and skills, affecting my performance and competitiveness in the tech industry.

Actions

I can set a regular study schedule with small, achievable goals to stay focused.

I will work on coding exercises, puzzles, and participate in hackathons to strengthen my skills.

I will practice speaking up in discussions and consider joining groups build my confidence.

Limit the time on mobile and social media by scheduling specific times for use and using apps to block distractions.
